

Dual credit programs are having a significant and positive impact on student retention and student performance.

Waxahachie Global High believes that students can embrace learning as a life long pursuit and become productive citizens of the local and global communities through communication and collaboration.

Waxahachie Global High School

EARLY COLLEGE HIGH SCHOOL

Approximately 94% of senior class receive their Associates Degree before graduating high school

We partner with two colleges; our local Navarro College campus and the University of Texas at Tyler which also serves as our state T-STEM Center.

Every student at Waxahachie Global High School is also a college student

Offering over 50 dual credit class choices including Health Sciences and Engineering

"Students who successfully complete just one dual credit class in high school are more likely to stay in college and graduate, compared to students who don't take dual credit"

"At Waxahachie Global High School, we don't prepare students for college, we support college students."

Waxahachie Global High develops the talents of students and fosters a desire to pursue higher education by immersing them in a smaller unconventional, learning community that maximizes their talents through the integration of academics with technology in a hands-on, real world environment.
