

CEIC Agenda

Staff in attendance:

Stefani Foster

Erica Brown

Sarah Curran

Julia Carrillo- Alisha Mathews subbing in

Bonnie Bearden

Alisa Marshall

Faryn Bodle

Melanie Anderson

Angie McClain

Katherine Martin

Mrs. Foster shared what the CEIC is and what all we do!

Concerns:

My table is not being cleaned at lunch and I do not know who my table monitor is.

Mrs. Foster pulled an email from the beginning of the year. Initially we began with tables without assignments due to scheduling. We had 3-4 adults in the cafeteria at all times. When we saw the need for improvement, we went ahead and assigned tables. Now that we know the concern, we will be speaking with each person to work on scheduling and guide clarification.

Are G2 classes mixed together?

Only two grade levels have students that are mixed together, but the person that takes them splits them off by their homeroom teacher. No other G2 groups mix. When they are in G2 they are working with only their class group and are masked.

Are specials in specials' rooms now? What about Covid?

Printed the COVID guidelines, on page 11, it states "having specials in the classroom or outdoors is recommended." If you are a teacher in here, you can express what a stress it has been to have specials in the classroom. There are protocols in place for safety.

**SPED is doing double work with in person and online. It is difficult trying to balance our caseload minutes of students that are in person AND online.

"Being online is difficult when I have behavior issues and it feels like someone is getting neglected." Can we have 1-2 people for SPED online across the district?

**Technology is lacking. We need more across the campus, especially in SPED.

The committee agrees that technology is lacking. It is also our WIFI. It isn't reliable, especially when trying to MAP test. Connectivity is not dependable.
