

Simpson CEIC Agenda/Notes  
Sept 24, 2020  
3:40 p.m.

Welcome/Purpose of the CEIC

Some participated in the meeting via zoom and some in person. We opened the meeting by telling the purpose of the committee and things it would accomplish this year.

\*We had zoom/technology problems and lost the connection to those that were participating online.

Introduction to CEIC members

Members present introduced themselves by telling their name and their role on the committee.

PTO updates (Emma) \*Will do at next meeting due to online issues.

Campus concerns/questions :

**What about class sizes and how big will they be allowed to get to?** 25 in 5th grade and 22 in K-4. The district wants to keep numbers down as in years past.

**Kindergarten had concerns about the amount of tests that have been given.** Curriculum was contacted about this concern. They answered that MAP testing was a district diagnostic test (new this year), TEXAS test (state mandate), and beginning of the year testing as in previous year. The state testing is a quick screener that all students must take but shouldn't take too long to assess.

**Some were concerned that more students would be returning/larger class sizes and how would we ensure social distancing.** We will continue to follow district guidelines and encourage all grade levels to wear masks/shields.

**Some are having Wi-Fi connectivity issues on campus.** Encouraged all to do technology tickets when they have any technology issues.

**Some "new building" concerns came up.** Members were encouraged to add to our campus Google Doc if they had any further campus/building concerns or questions.

**Some were having trouble with Promethean boards.** Technology is aware and will be coming to fix those issues.

**Will Special education teachers continue to be required to do online and in person teaching?** Some are using after-school hours to do zoom meetings and push out SeeSaw info to parents/students since they are limited during the school day and don't seem to have enough

time during the day for both. \*This concern was sent to DEIC and addressed by the Special Education department.

Review Simpson Campus Improvement Plan

\*We will do this at the next meeting - due to technology issues.

Members present:

Darla Wilson

Carrie Andrews

Allison Bryant

Jenise Lonergan

Jami Montes

Clare Kelly

Stephanie delaCerde

Ashley Dodd

Raechelle Ivy

Ashley Cieri

Next meeting is scheduled for October 27 at 3:45.
